COVID-19 POLICY

Dear Patient:

We have all had to make modifications to our way of living due to Covid-19. One of the adjustments we had to make was to our visitor policy. In order to keep everyone safe,we can only allow patients in the office at this time. This includes our lobby because we have limited capacity due to social distancing. Exceptions are taken into consideration for those with mobility or cognitive impairments.

As a reminder, please make certain you wear a face mask that covers the nose and mouth prior to entering the building. We ask that you keep the mask on for the entirety of your visit.

We truly appreciate your understanding and want you to know that safety is paramount for all who visit our office.

FACILITY FEE NOTIFICATION

Dear Patient:

Thank you for considering Providence Saint John's Health Center. We would like to provide you with information regarding the billing process. Our practice is a department of Providence Saint John's Health Center. As a result, you will receive a bill from Saint John's Health Center, as well as one from our physician who provides professional services. This is because our office is considered to be a hospital based practice. Medicare and most insurance companies require that patients make two payments (one to the surgeon and one to the facility) for care received in provider clinics.

All visits to the clinic will result in a 'facility fee' in addition to any tests or procedures. Like other fees, the 'facility fee' is usually covered by your insurance, resulting in you being responsible for the co-payment only. The hospital will also charge a technical fee for any tests or procedures (such as x-rays). If your visit or procedure is covered by insurance benefits, the insurance company will decide the amount you are responsible for paying.

We would appreciate you signing this letter below and returning it with your registration information. Please feel free to contact us if you have any questions.
